Laws of Logarithms

Laws for Logarithms

The following laws are very useful for working with logarithms.

1. $\log_b(X) + \log_b(Y) = \log_b(XY)$

2. $\log_b(X) - \log_b(Y) = \log_b(X/Y)$

3. $\log_b(X^Y) = Y\log_b(X)$

4. $\log_b(X) = 1$ when $b = X$

Laws of Logarithms

Use the Laws of Logarithms (only) to evaluate the following expressions:

1. $\log_2(8)$
2. $\log_2(\sqrt{128})$
3. $\log_2(64)$
4. $\log_5(125) + \log_3(729)$
5. $\log_2(64/4)$

Laws of Logarithms

1. Evaluate $\log_2(8)$

Laws of Logarithms

2. Evaluate $\log_2(\sqrt{128})$

Laws of Logarithms

3. $\log_2(64)$

Laws of Logarithms

4. $\log_5(125) + \log_3(729)$

Laws of Logarithms

5. $\log_2(64/4)$
